OBJECTIVES

Hi, I'm a B.Tech student at St. Thomas' College of Engineering & Technology, specializing in Information Technology. I'm passionate about technology and its potential to solve real-world problems. I'm proficient in programming languages like Python and Java. I'm excited to use my skills to make a positive impact on the world.

EDUCATION

- St. Thomas collage of Engineering and Technology**
BTech in Information Technology
2022 - 2025 | Kolkata, India CGPA : - 8.56 overall
- THE CALCUTTA TECHNICAL SCHOOL**
Diploma in Computer Science & Technology
2019 - 2022 | Kolkata, India
CGPA :- 8.7
- Santragachi Kedarnath Institution For girls**
Higher Secondary Exam
2017 - 2019 | Howrah, India
Percentage : 67.33%
(overall six subjects)

COURSEWORK

- UNDERGRADUATE**
Data structures and Algorithms Object Oriented Programming
Database Management System
Operating Systems
Computer Networks

INTERESTS

- OOPs
Web Development
Software Development
Data Structures
Software Engineering
Operating System
Computer Networks

EXPIRENCE

- Web Developer Intern
CipherByte Technologies
- Start: July 2024
 - End: August 2024
 - Kolkata, West Bengal

PROJECTS

- Robotics assembly line Balancing | (on going final year project)**
- Developed a solution to minimize cycle time in a robotic assembly line using the Artificial Bee Colony (ABC) algorithm.
 - Focuses on optimizing task assignments with unlimited robots while respecting task precedence constraints.
 - Implements Java for algorithm simulation and analysis to enhance assembly line efficiency.
- Port Folio | [Source Code](#) | [Visit Site](#)**
- Built a personal portfolio using HTML, CSS, and JavaScript to showcase skills and achievements.
 - Features a resume, technical expertise, and a curated project showcase.
 - Provides insight into personal interests, blending professionalism with personality.
- ToDo List Using Web Development | [Source Code](#) | [Visit Site](#)**
- Built using HTML, CSS, and JavaScript for task management with a focus on user experience.
 - Features form validation, responsive design, and Local Storage for data persistence.
 - Enhanced UI with modern design elements and dynamic task handling using JavaScript.
- Airline Ticket Booking System | [Source Code](#)**
- Developed using Java to streamline flight reservations.
 - Utilizes MySQL for efficient database management of flights and bookings.
 - Ensures a user-friendly experience with reliable backend support.
- ToDo List Using python | [Source Code](#)**
- Built using Python with Tkinter for an interactive user interface.
 - Utilizes Oracle database for secure data storage and management.
 - Provides a solid foundation for robust backend support in applications.
- ToDo List Using Flutter | [Source Code](#)**
- Developed using Flutter with shared preferences for persistent data storage.
 - Provides a smooth and responsive user experience.
 - Ensures efficient data retrieval and saving for task management.

CERTIFICATES

- ❖ Programming using Java → Infosys Springboard • 2024
- ❖ Python for Beginners → Udemy • 2024
- ❖ HTML5, CSS3, JavaScript → Infosys Springboard • 2024

SKILLS

Languages

JAVA
Python
C
Flutter
